

# Charm Android Application Upgrade Instructions

## Purpose:

Periodically, new versions of the Charm software will be released to fix bugs, provide improvements, etc. This work instruction will walk you through the steps to download and update your Charm application.

## Section 1 - Download the New Application:

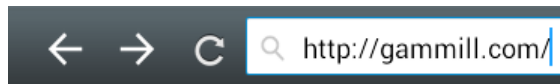

Note: You will need your tablet connected to the internet in order to follow this process.

1. On your tablet, open the **Internet Browser** Application

2. Click on the top address bar to bring up the on-screen keyboard.

3. Enter **gammill.com/**

4. Click on

5. Click on **Products**

6. Click on **The Charm by Gammill**

7. Click on the **Charm Image**

8. On the left menu, click on **Software Downloads**

9. Click on the **Download Software** link for the version you want to download. Gammill always recommends the latest version unless specifically directed by a technician.

10. The file will be downloaded to your tablet. Depending on your internet connection speed, it could take several minutes. The download icon will blink on the status bar while downloading, and be solid when the download is complete.

## Section 2 - Un-Install the Existing Application:

Note: If you are currently running version 1.2.0 or later, you may skip to Section 3 below. To find your current version, within the Charm application, click on the menu in the upper right corner, and then click on About. It will show the currently installed application version.
