

Vision 2.0 v1.2.0 Release Notes

Purpose:

This document provides information about changes and improvements made to the Android application and Bluetooth Module firmware for the Gammill Vision 2.0 product.

Bluetooth Module Firmware Version Included:

- R127

Previously Released Version:

- v1.1.0

Changes in This Version:

- H-Lock Toggle and V-Lock Toggle added to My Stitch™ Buttons.
- Single Stitch Icon added to User Interface. Sits between tie-off and Start icons.
- Single stitch allowed during Baste mode. When a single stitch delivered, Baste distance count is reset.
- Various “under-the-hood” improvements.
